

Happy Holidays!

Dear business associate

As the year is coming to a close, we are looking forward to the holiday season and to be spending time with our loved ones after a hectic 2015. However, one cannot rewind 2015 and be celebrating business achievements without pausing for a moment, mourning the meaningless loss of lives in February when Copenhagen again was the scene of despicable acts of terror.

Now, 2015 has indeed also had its moments of joy and celebration. Thanks to our clients and business partners, we have had the pleasure of taking part in some of the most spectacular and demanding legal assignments in the Danish market. Especially within the infrastructure, renewable, technology and logistics industries, we have had the pleasure of expanding our footprint. Working on these assignments with committed and experienced corporate management teams and private equity professionals is a true source of inspiration and development.

We have also had the pleasure of inviting two new partners to our team in 2015, and we have expanded our associate base with some of the most energetic and bright legal minds in Denmark. We are thankful for all the international assignments we have shared with our international colleagues – both in-house and in private practice. Creating and maintaining an international platform remain a very important feature when attracting and retaining talent.

As a concluding remark, we have again this year decided to donate an amount to Børnenes Kontor (www.boerennes-kontor.dk) which supports Danish children from indigent families.
